

TASK #06

STORYBOARDING OF AN APP : STUDY BUNNY(FOCUS TIMER)

Use GIFs, images, or the pen tool to add visuals to your script.

Paths

Use Paths to guide collaborators through your board content and tailor board navigation for specific audiences.

Magic Shape

Pen

Eraser

1

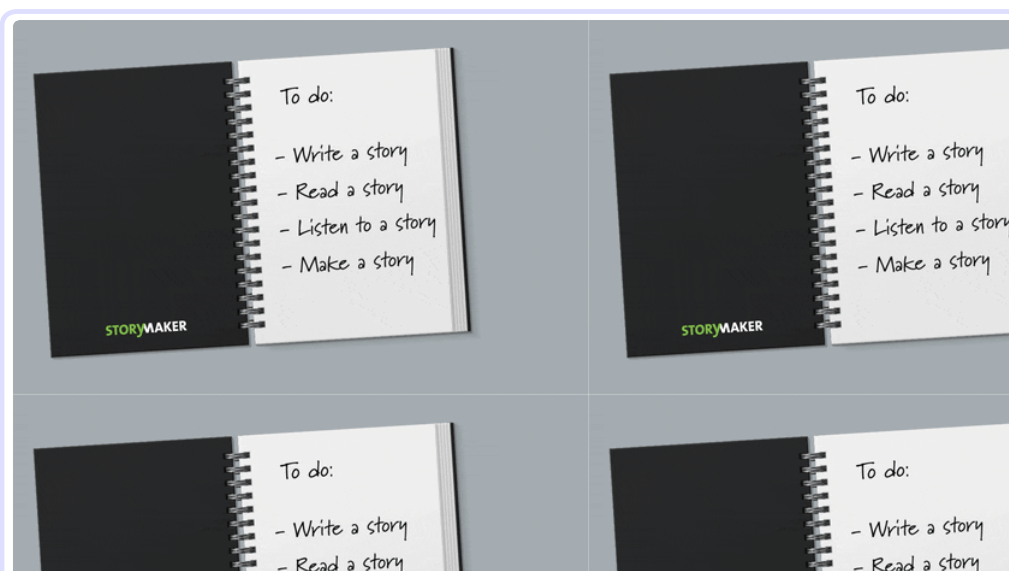

Unable to focus on the studies .
Here comes the STUDY BUNNY.

2

Sets your timer while studying
to stay focused.

3

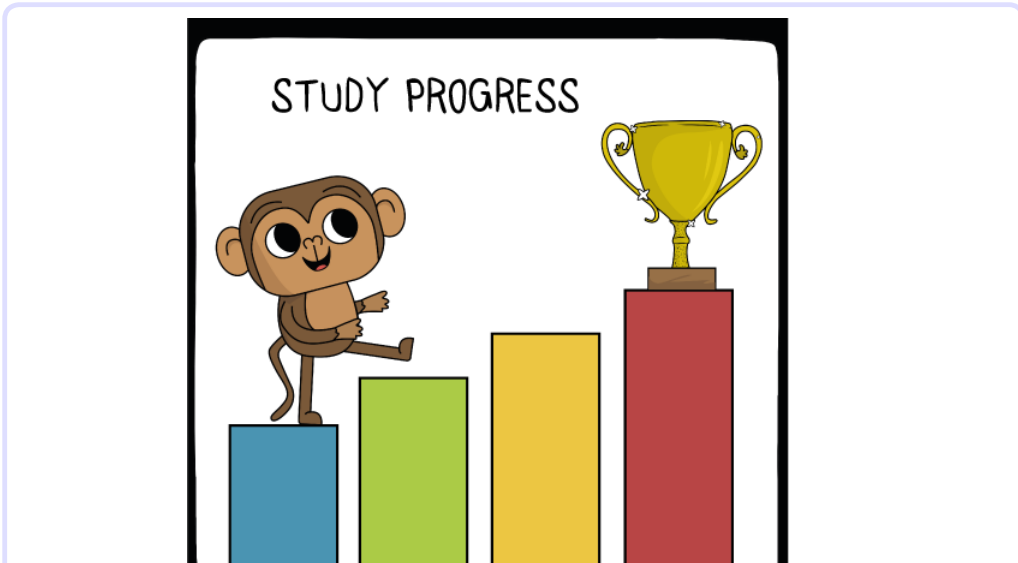

Helps in setting a TO-DO list
,flashcards and customized
study tracker.

4

Can study together in the app
which helps in clearing doubts
and helps you to stay focused.

5

Tracks your study progress and
you can also view your progress

6

Helps in earning rewards for
focusing on studies.

7

You will see a gradual change in
your study process that is your
focus will be increased which
helps you to study.

8

Increase in your focus can lead
you to think and create
innovative ideas which makes
you a unique person.

9

Finally you will be BACK ON
TRACK in your studies with
more focus on it.

Copy and paste frames to add to your story. When you're done, create a path to share your storyboard step by step.
